### Item 8.01. Other Events

In September 2006, International Assets Holding Corporation, now known as INTL FCStone Inc. (the "Company"), completed a private placement of senior subordinated convertible notes due September 2011 (the "Notes"). The aggregate principal amount of the Notes was \$27 million. The Notes bore interest at the rate of 7.625% per annum and, after dilution adjustments, were convertible at any time at the option of the noteholder into shares of the Company's common stock at a price of \$21.79 per share.

As of June 30, 2011, the noteholders had converted \$18 million in principal amount of the Notes into shares of common stock of the Company. The outstanding principal amount of Notes at that date was therefore \$9 million.

The remaining two holders of the Notes gave the Company notice, effective September 12 and September 13, 2011, respectively, that they wished to convert the full outstanding principal amounts of the Notes, plus accrued interest, into shares of the Company's common stock. Accordingly, on September 13 and September 14, 2011, the Company issued a total number of 419,468 shares of the Company's common stock to the holders of the Notes.

The outstanding principal amount of the Notes has thus been reduced to zero and the Company's stockholders' equity has been increased by \$9 million.
