Disclaimer

The StoneX Group Inc. group of companies provides financial services worldwide, including physical commodities, securities, exchange-traded and over-the-counter derivatives, risk management, global payments and foreign exchange products, through its subsidiaries, in accordance with applicable law in the jurisdictions where services are provided. References to over-the counter ("OTC") products or swaps are made on behalf of StoneX Markets LLC (SXM), a member of the National Futures Association (NFA) and provisionally registered with the U.S. Commodity Futures Trading Commission (CFTC) as a swap dealer. SXM's products are designed only for individuals or firms who qualify under CFTC rules as an 'Eligible Contract Participant' ("ECP") and who have been accepted as customers of SXM. StoneX Financial Inc. (SFI) is a member of FINRA/NFA/SIPC and registered with the MSRB. SFI is registered with the U.S. Securities and Exchange Commission (SEC) as a Broker-Dealer and with the CFTC as a Futures Commission Merchant and Commodity Trading Advisor. References to securities trading are made on behalf of the Broker-Dealer Division of SFI and are intended only for an audience of institutional clients as defined by FINRA Rule 4512(c). References to exchange-traded futures and options are made on behalf of the FCM Division of SFI. StoneX Financial Ltd is registered in England and Wales, Company No. 5616586, authorized and regulated by the Financial Conduct Authority.

Trading swaps and over-the-counter derivatives, exchange-traded derivatives and options and securities involves substantial risk and is not suitable for all investors. The information herein is not a recommendation to trade nor investment research or an offer to buy or sell any derivative or security. It does not take into account your particular investment objectives, financial situation or needs and does not create a binding obligation on any of the StoneX Group companies to enter into any transaction with you. You are advised to perform an independent investigation of any transaction to determine whether any transaction is suitable for you. Forward-Looking Statements

The following presentation should be taken in conjunction with the most recent financial statements and notes thereto as well as the most recent Annual Report on Form 10-K, subsequent Quarterly Reports on Form 10-Q and other reports filed with the SEC by StoneX Group Inc. (the "Company"). This presentation may contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements involve known and unknown risks and uncertainties, many of which are beyond the Company's control, including adverse changes in economic, political and market conditions (including the uncertain impacts of COVID-19), losses from the Company's market-making and trading activities arising from counter-party failures and changes in market conditions, the possible loss of key personnel, the impact of increasing competition, the impact of changes in government regulation, the possibility of liabilities arising from violations of federal and state securities laws and the impact of changes in technology in the securities, foreign exchange and commodities dealing and trading industries. Although the Company believes that its forward-looking statements are based upon reasonable assumptions regarding its business and future market conditions, there can be no assurances that the Company's actual results will not differ materially from any results expressed or implied by the Company's forward-looking statements. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. Readers are cautioned that any forward-looking statements are not quarantees of future performance.

Non-GAAP Financial Measures

The following presentation includes non-GAAP financial measures, including Adjusted Net Income. Non-GAAP financial measures have certain limitations, including that they do not have a standardized meaning and, therefore, may be different from similar non-GAAP financial measures used by other companies and/or analysts. The Company believes its reporting of select non-GAAP financial measures assists investors in evaluating its historical and expected operating performance. However, because these are not measures of financial performance calculated in accordance with GAAP, such measures should be considered in addition to, but not as a substitute for, other measures of the Company's financial performance reported in accordance with GAAP, such as Net Income. See the Appendix for a reconciliation of the Company's Adjusted Net Income to the most directly comparable GAAP measure.

Diverse and Resilient Business Model

Multiple Near-Term and Long-Term Macro Drivers for Growth

•										
⚠ Vola	tility	Client Behavior								
volatility drives increased activity and	use bid/ask spreads to widen, also et-maker in certain products Short Mac Trei	 Despite difficult macro market conditions for clients, we continue to provid market intelligence, trading and risk management tools to support their needs, ensuring clients remain sticky to our platform Clients continue to seek a "one stop shop" for financial needs Continual digitization of our platform to better satisfy client needs and increase operational efficiency in a cost-effective manner E-Term Interest Rates Mid-Market Customer Focus								
 Long-term trend of increased regulation pressuring marginal competitors Regulatory burden creates barriers to entry Regulatory cost and complexity creates potential acquisition opportunities 	 Clients increasingly seek global solutions Liquidity increasingly fragmented with few firms able to provide access to disparate liquidity pools International growth opportunities 	 \$9.8+ billion in client funds drive significant, high margin revenue as interest rates rise Changes in interest rates typically drive market volatility 	 Middle-market clients underserved by large banks which are focused on large clients Few firms outside of large banks can provide breadth of products and services Clients demand to transact with well-capitalized counterparties 							

Opportunistic Industry Consolidator

Well-Positioned to Take Advantage of Further Consolidation

- StoneX maintains an advantageous position in a highly regulated industry where clients reward counterparties possessing a strong capital base, regulated status and deep sector experience
- Costly regulatory, compliance and capital rules have increasingly pressured smaller, insufficiently capitalized firms while benefiting stronger firms such as StoneX
- These same rules (e.g. MIFID and Dodd-Frank) have also impacted bulge bracket banks, prompting an offloading of non-core businesses and creating attractive inorganic growth opportunities for mid-market firms like StoneX
- StoneX's solid balance sheet, favorable regulatory position and publicly traded status make it an appealing partner to potential acquisition targets
- StoneX has significant expertise and is a proven, reliable partner, completing over 20 acquisitions in the past 10 years

Acquisition Criteria

- Patient and disciplined approach to acquisitions has reaped benefits for StoneX shareholders
- · Typical acquisition criteria include:
 - Client-centric businesses
 - Broadens capabilities (products, expertise, geographies, technology, etc.)
 - Short payback period
 - · Limited leverage and goodwill
 - · Highly opportunistic

StoneX* (1) Give-up fees as well as cash and voice brokerage revenues are excluded from the calculation of listed derivatives, average rate per contract (2) Due to the significant increase in short term rates, we have amended our calculation of Securities RPM to represent the RPM after deducting the interest expense associated with our fixed income activities from operating revenues. Interest income related to securities lending is excluded from the calculation of Securities RPM
